SENIOR CLASS

■ ■ ■ Foreword

AVIATION! Around this modern theme we have built our picture of Eastern High School life. We have chosen this motif, because it represents the modern, up-to-the-minute spirit for which our school is noted. It points to the success which Eastern High School graduates have achieved, and symbolizes the progressive goal for which Easternites are striving. With this in mind, we have featured two of our graduates, Clem Sohn and Roger Don Rae, internationally famous in aviation.

Another feature of our book, characteristic of all Eastern High School life, is its democratic spirit. In keeping with this spirit we have chosen the word FLY by which to recognize Eastern Seniors. Using the three letters of this word, we have enumerated their activities, thus helping to carry out the theme. To suggest the democratic idea of team work we have, insofar as possible, placed the class officers, teachers, and clubs in informal groups. The views in the opening pages are intended to suggest the friendly democratic atmosphere of our school.

We have given special attention to the make-up of the Choir and Band pages, two popular organizations. Likewise, in the club section, we have used a distinctively new type of page layout. We have adopted the informal grouping of pictures so populor in our present day magazines, and have used circles, ovals, and triangles to give an interesting balance and variety.
We have attempted to make the annual a complete record of cur year.

MR. SCHNEIDER!

The senior classes dedicate their yearbook to you, to show their appreciation for the work you have done as class advisor for two and a half years with each class. You have given innumerable hours and unlimited energy in making the Sophomore Mixers, J-Hops, Senior B parties, and the Senior A activities—including the Proms, Commencements, Baccalaureates, and Banquets,—unusually successful. We appreciate your originality, humor, and good sportsmanship.

Besides your heavy extra-curricular duties, you are recognized as an outstanding mathematics instructor.

Your ability and personality is an inspiration to the members of the Senior classes.

■ ■ ■ Lansing, Our City — the Capital of Michigan!

CLEM SOHN—a graduate in the class of January, 1930.
With the cooperation of Eastern High School and the assistance of Art Davis at the Lansing Airport, Sohn learned the basic principles of aeronautics which he used later in developing his "bat-wings." In 1934 he astonished the world with his first "bat-wing" jump. The American Aeronautical Association awarded him a first rating in parachute jumping in 1936. He has done his sensational jump throughout Britain and has recently gone to France to continue his unique "bat-wing" stunt. Clem Sohn is another graduate whom Eastern is proud to claim.

December 7, 1910 - April 25, 1937

ROGER DON RAE—a graduate with the class of June, 1929.
In high school Roger Rae was interested in aeronautical engineering. He began flying at the Lansing Airport under the guidance of Art Davis. He achieved success rapidly. In 1936 the American Aeronautical Association awarded him a first rating in air-racing and parachute jumping, a double achievement yet unparalleled. He is known as "America's Most Versatile Airman." Eastern is proud of her famous alumnus, Roger Don Rae.

Eastern's students mingle together in her halls promoting a friendly, democratic spirit.

We remember these minutes between classes—gay laughter, a momentary chit-chat, a smile, and a friend made.

Here is pictured the staff which keeps our school **ADMINISTRATION** running smoothly. Besides a modern high school curriculum and teaching staff, Eastern High School has an up-to-the-minute system of Guidance, a Character Education program, and is experimenting with Social Hygiene instruction. The Commercial Department conducts a placement bureau for Eastern graduates with splendid results, and offers a post-graduate course. Eastern High School sponsors an active P.T.A. organization together with the Dads of Eastern, another valuable asset. Our school building is equipped to give us many advantages: two auditoriums, the largest of which has a seating capacity of 1,666; a social room; two gymnasiums; a swimming pool; an automotive shop; and a cafeteria. An addition to the third floor is being constructed. The cost of our building including the equipment is almost $1,500,000. The following sections will picture in more detail the teachers and the departments which they represent.

G. E. Chadwick, Dean of Boys.

In keeping with the progress made by the rest of our school, the **ENGLISH DEPARTMENT** is offering two new courses this year. One of the two, remedial reading, teaches students how to read more easily. It is designed for those students who find reading a difficult task. To determine whether poor eyesight is the cause of this reading difficulty, a Betts Ready to Read Service has been purchased. Radio speech, a course which very few schools in Michigan have yet introduced, is the other new English subject. For use in this course, the school has bought a fine new public address system.

Eastern High School is noted for its excellent English department. The graduates of Eastern who attend Michigan State College are rated above average in English. The grammar course with its mimeographed material has been finely worked out. In addition, a course in world literature such as many schools do not have is offered to the seniors.

The **LANGAUGE DEPARTMENT** is experimenting with a new system of teaching this year. The students of Spanish and French hear conversations carried on in those languages through the medium of Linguaphone Phonograph records. Hearing the language they are studying spoken correctly is expected to benefit them greatly. In addition, the Spanish Department expects to teach Spanish 5 and 6 if a sufficient number of students desire those courses.

The head of the Latin Department, Miss Smith, has brightened her room by the addition of a mural painted in color by two students. This mural depicts a Roman triumphal procession. Awards are purchased by the Latin Club for the students who do excellent work in advanced Latin. Three classes of awards, the Eta Sigma Phi medal, the Virgilian award, and Roman coins, are open to advanced Latin students. In addition to Spanish, French, and Latin, a student may, by entering the German Club, learn something of that language.

Miss Smith discusses the Roman Senate with Rumsey Haynes.

■ ■ ■ and the Physical Education

R. A. Winston, B.S.; Walter Graff, Life Certificate; Winifred Kalchthaler, A.B.

Naturally, with all the equipment which the school owns, the **GYM** students are not without exercise during the winter, but outdoors baseball and running on the track in the spring are looked forward to. The equipment in our gymnasium includes six basketball backboards, permitting two games at once, mats, a springboard, and, of course, the swimming pool. Out-of-doors, aside from the stadium, which has a capacity of fifty-five hundred, and is lighted to permit night football, we have two volley ball courts, a track, and plenty of room in which to play ball. The three gym teachers not only have charge of over one thousand enrolled students, but they must also direct about forty-five interclass contests in volley ball, baseball and basketball every year.

Seated: Helen Walter, A.B.; Leila Reynolds, B.S.; Verna Gunnison, Nelson Van Liere, A.B.; **Standing:** Donald Manz, B.S.; Margaret Willman, B.S.; Esther Cline, A.M.; Benjamin Leyer, A.B.; Wayne Edgerton, A.B.; Ralph Peterman.

■ ■ ■ and the Commercial

Did you know that over ninety per cent of the students of our school take some subject taught in the **COMMERCIAL DEPARTMENT?** Needless to say, this requires a great deal of equipment and many instructors. There are ten teachers who are endeavoring to help our students to become acquainted with practical business situations. They familiarize us with the use of twenty-eight different types of machines. To get a better understanding of the work which they expect to undertake, the commercial students visit modern business offices in the city and observe their practices The salesmanship students have visited some of the largest department stores in Detroit. In addition to the courses now offered, the Commercial department expects to introduce a new course in Consumer Education next semester. A unique feature of this department is its student placement bureau.

Seated: Harry Wilson; E. L. Courtney, A.B.; Emil Marklewitz, B.S.; T. K. Clark, B.S.; **Standing:** Orville Flory, A.B.; A. G. Williams; D. W. Bradford.

■ ■ ■ and the Industrial

Woodwork Shop.

There are two sides to the **INDUSTRIAL COURSE;** namely, that which emphasizes vocational, and that which stresses the appreciational and cultural aim. Any academic student may elect subjects in the latter, in fact, students expecting to enter engineering, medical, or dental schools are required to take some drafting and woodworking at the college. The graduates of that part of the industrial course which is vocational are prepared to enter industry immediately. They learn printing in a fully equipped print shop by printing the school newspaper along with various other jobs for school organizations. They experiment in the automotive shop with a new six cylinder motor received recently from the Olds Motor Works and other motors. The Industrial department expect to expand in the future in the electrical, aeronautical, and diesel engine fields.

■ ■ and the Social Science

As every student knows, we are required to make an intensive study of the history of the United States. The use of a new text book this year enables us to follow the growth of America up to, and including the policies and achievements of our present President. This year the **SOCIAL SCIENCE DEPARTMENT** has introduced a new subject called American Government. The course is designed to acquaint the students of our school with the present day America and its various social problems. Over fifty per cent of our students are enrolled in the classes taught by the Social Science department. There are only four full time and two part time teachers. This condition has suggested an experiment with double-sized classes. Mr. Chadwick and Mr. Gilson conduct them.

Seated: Frances Baldwin, B.S.; Lora Knevels, A.B.; T. G. Harris, M.A.; Gracia Sexton, A.B.; G. E. Chadwick, A.B.; **Standing:** Russell Gilson, A.M.

■ ■ ■ and the Science

M. A. Leach, M.S.; Hyrtl Feeman, A.B.; H. C. Lange, M.A.; Lois Manning, A.B.

In the Chemistry Lab.

Most students think of physics as a course to be taken only by future engineers. Consequently, the **SCIENCE DEPARTMENT** has introduced a course in physics which is not intended to be college preparatory, giving less mathematics and more class demonstration. The Science department offers a variety of courses. Besides physics, a student may acquire a knowledge of chemistry, physiology, and biology. Everyone is familiar with the strange sounds and smells emanating from the botany, chemistry, and physics laboratories. The experiments carried on there, in themselves, tend to make all of the branches of science interesting.

■ ■ ■ and the Mathematics

The **MATHEMATICS DEPARTMENT** has, like the rest of the school, made some important improvements this year. An experiment is being made with a class called social arithmetic. It is a practical mathematics course in which budgets, graphs, and banking are taught. Because of its success, this course will probably be taught here permanently. Another worthy improvement is the removal of the mathematics requirement from the list of requirements for graduation in the academic course. However, a student who so desires may acquire a knowledge of algebra, geometry, and trigonometry from our Mathematics department.

Herbert Fox, A.M.; J. K. Burnham, A.B.; Don Wheeler, A.B.; Alan Bovard, A.B.; Russell Schneider, A.M.

■ ■ ■ and the Art

Cleobelle Harrison, A.B.

An Art lesson.

A department with but one teacher and a relatively small number of students, the **ART DEPARTMENT** is one of the most progressive in the school. We cannot fail to realize that it is quite a task keeping the course progressing with the trend of the times, but Miss Harrison has accomplished this. The art students get a great deal done. Some phase of their work is constantly on exhibit. They have entered many city, state, and national contests, never failing to win some prize.

William McIntire, B. Mus.

It is the work of one man, Mr. McIntire, to teach all of Eastern's many **MUSIC** enthusiasts. There are about twelve organizations in Eastern which appear in assemblies, concerts, and operas. Two of them have brought the school unusual recognition. Our vested choir has been asked to represent Michigan at the National Music Educational Conference, and the band was voted the best marching and playing band in the state. Eastern High School owns excellent musical equipment. The school has purchased three thousand dollars worth of instruments which are loaned to the students. A sound proof music room is being constructed.

■ ■ ■ and the Music

Ann Wheeler, B.S., B.A.

Although there is no subject taught in the **LIBRARY,** the work done there demands recognition. Miss Wheeler and twelve student assistants are kept busy lending from a collection of approximately 6,000 books. During last year they circulated 32,344 books or about 200 books every day. In an attempt to keep up to date, about twenty-five new books are added to the collection every month. The library is not used as a study hall. Instead, it is a place where students may come for reference work or plesaure reading.

■ ■ ■ and the Library

The **HOME ECONOMICS** department is endeavoring to help the students adjust themselves to the problems met in their daily lives as well as to improve their foods, clothing, and etiquette. To help accomplish this purpose three new courses have been introduced this year. Personal and Social Problems, one of the three, has become the most popular home economics course. Using a furnished apartment as a laboratory, the students of home economics gain much valuable experience. In addition to this they work in foods and clothing laboratories, and in the cafeteria where approximately 250 students buy their lunches every day.

■ ■ ■ Senior A Class Officers

TAKING OFF! We, the June class of 1937, came out onto the field to begin our ground training under the master guidance of Mr. Chadwick. Our first record holder was Betty Mae Earley, who was elected president of the crew. At first we did a great deal of blind flying, but when we were welcomed into the great hangar at the Sophomore Mixer, the visibility grew clearer. We, in turn, as Sophomore A's, played hosts and hostesses to the incoming amateur pilots.

CLIMBING! Every day was a flying day, and so we climbed higher into the second year of training at Eastern High School with the hopes of some day becoming veteran pilots. Jack Earley was the first Junior Birdman to go up as president of the class. Our amphibian pilot, Harry Helman, won his way to victory in the water, and Bill Horn did the cross-country flying. Ed Shelburg and Bob Saunders climbed high in football and basketball, and Bob Dixon and Jack MacInness swung the rackets. On the evening of March 14 we locked the planes in the hangar and joined Charles Peterman at the J-Hop, "Court Royale," dancing to the captivating rhythm of Ray Vickerstaff's orchestra.

CRUISING! With a high ceiling and sunny weather we launched into the last few hours of training. Again our Ace Pilot, Jack Earley, stepped forward with the highest honor as Student Council President, and Marie Hollander held the women's record as the Girls' League President. Annabelle Vincent and Burdette Bottom, the twin motor pilots, presented some very fine stunting in the Broadway hit, "Smilin' Through." From among our midst Helen Williams winged her way to the highest altitude record as a star in the musical comedy, "Hollywood Bound." Still cruising along we made Albert Hays chairman of our Senior Prom held on May 15. Donning our caps and gowns, we had our last opportunity to do a bit of barnstorming on Senior Day and at the Senior Program with Christine Horn behind the stick. On June 17 we received our diplomas as master airmen.

Dorothy Sober, Vice-President; Herman Holstein, Boys' Athletic Director; Fred Adams, President; Virginia Gaunt, Secretary; Blanche Gates, Treasurer; Mr. Schneider, Advisor; Beth Hack, Girls' Athletic Director.

Senior B Class Officers

GROUND WORK. Entering the great hangar of Eastern High School, we, the January class of 1938, began ground work under the advisorship of Mr. Chadwick. We started training with Virginia Gaunt as president. Our jolly Sophomore Mixer under the direction of Blanche Gates helped us to learn how to control our motors in perfect unison. During our Sophomore year in ground training we mastered our routine jobs.

DUAL INSTRUCTION. Starting down the runway on our first flight as amateur pilots, the first record holder was Wayne Wilcox, president of the Junior class. Climbing higher and higher, we took the air pockets the best we could and came out above the clouds. Herman Holstein and Orion Brower showed spectacular performance in basketball and football respectively, and Ronald Starbuck was the outstanding baseball pitcher. Bill Sikes showed great velocity on the track and set a new record. Our famous women birdmen in the athletic field were Beth Hack and Mary Ellen McKeon. Taxiing our planes up to the hangar and locking them up for the night, we went to the J-Hop with Fred Adams leading the grand march. Again, setting out for a cruise, we discovered Marie Mutz and Harris Webster winning honors as all-A students.

SOLO FLYING. With the last lesson in training finished, we began the long hours of solo flying. The Ace Pilot, Fred Adams, was the first solo pilot as president of the veteran flyers. Our congenial hostess, Dorothy Sober, was elected vice-president of the Girls' League and also vice-president of the class. (More hours to you, Dorothy.) The athletes zoomed high with Orion Brower and John Yonchewski as star football players. Dorothy Harrod and Fred Adams displayed balanced power in the Senior B play, "Candlelight," with Jim McKeown following close. With Audrey Sutherland as Editor-in-Chief of the Lantern, there was nothing but smooth teamwork. Also, as co-pilots, were Betty Rowley as head of the senior section and Arthur McFarland head of the athletic section.

We are eagerly awaiting our last hours as veteran pilots, during which many activities have been planned. Among these are the Senior Party, with Audrey Sutherland in charge, the Senior Prom, Senior Day, and the Senior Banquet. With such a program ahead of us we are sure that every day will be a perfect flying day.

The STUDENT COUNCIL with Jack Earley as its capable pilot had a most successful year. Due to the overwhelming success of the first semester, under his guidance, Jack was reelected for a second term, being the only president to serve a full year. During the first semester Joseph Kroll held the office of vice president. Charles Peterman took over his duties in the spring. Mary Alice Jennings was the secretary during the entire year. Promotion of honesty, better hall conduct, investigation of a student court, Friendly Week, more social activities—these are only a few of the activities discussed and accomplished by our council.

Essays! Editorials! Poetry! Eastern's literary geniuses belong to the **QUILL AND SCROLL,** an honorary organization of international recognition. Contests of all kinds—local, state and national are entered by the members of this club. Several received honorable mention in the December district contest. Many writings of an educational nature are published in the Easterner. Several distinguished speakers have been heard at their bi-weekly meetings.

Row 1: May, McFadden, Baker, Webb; **Row 2:** Robson, Leute, McNeil, McLean, Miss Wheeler, Bowden.

Where do they keep the fiction books? How can I look up this aviator?—Such questions keep the **LIBRARY STAFF** flying about its hangar at all times. Many of the staff members also belong to the **LIBRARY CLUB** which aids the staff when necessary. Book week is a special event of both the staff and club. All honors to these fine girls who are aides to everyone in Eastern!

Resolved: "That all electric utilities should be governmentally owned and operated," the subject argued by the **DEBATE TEAM.** All debaters were juniors and inexperienced, but seven received awards. A sophomore team was organized which looks promising for debating material next year. Extempore speakers discussed President Roosevelt and the Social Security Act. Declamation was open only to sophomores and oratory to juniors and seniors.

Hurrah! We get an **EASTERNER** today! We hear this cry every other Friday at Eastern! Published by the journalism classes, with Aline Vaughan and Marshall Burgess as editors-in-chief, it is given to all holders of General Organization Tickets. It received first class honor rating last year from the Columbia Press Association and All-American rating this year from the National Scholastic Press Association. Congratulations to Miss Janney and the staff members!

HONORS, HONORS, AND MORE HONORS! THE CHOIR again brings an honor to Eastern! It was asked to represent the State of Michigan for the National Contest held in Minneapolis, Minnesota. It also was the clinic choir at the School Masters Club in Ann Arbor, with Nobel Cain as its guest director. Eastern's songsters appeared at the annual banquet of the Chamber of Commerce, sang for the teachers' institute, Holy Week services, and the Spring Concert.

Attempting something new this year, the Madrigal Choir gave a **MUSICAL COMEDY, "HOLLYWOOD BOUND,"** instead of an operetta. The cast included:

Watch our **BAND** march by with colors flying. Heaps of honors it has earned! It has taken the lime-light of football games. It has marched between halves and formed letters, the march of time—yes—even airplanes! This musical organization of Eastern enjoys a state-wide reputation as a well-drilled marching unit. Last spring it received first place at the Tulip Festival held each year at Holland, Michigan. This year it again participated in this colorful event. The new uniforms for which it worked so hard made our band a nifty looking organization. The band played in a spring concert given by the musical organizations of Eastern. It marched and played for many civic and school celebrations. We are proud of our band's accomplishments under Mr. McIntire's direction.

Eighth Period and—strains of melodious music floating through the air! Due to lack of time on the part of Mr. McIntire, this class must be held after school hours, nevertheless, many turn out for it. Performances, including classical and semi-classical numbers, are given at Senior B Plays, the Opera, Commencement services and Baccalaureate. Once a year the **ORCHESTRA** is featured in an assembly program.

Row 1: Pruim, Slaughter, Czecha, Dexter; **Row 2:** Dunbar, Gregory, Krater, Gannon, Gross, Comstock, Metz, O'Meara, Vail, Rose, Dexter; **Row 3:** Tueling, McFadden, McNeil, Dewey, V. OUR GIRLS' BAND, with uniforms this year, has represented Eastern on many occasions including two basketball games, assemblies, Allen Street P.T.A., and the spring concert. The band has made trips to the Holland Tulip Festival, to a band festival at Olivet, and to Ann Arbor to play with the All-State band. Eastern is proud of this organization—keep up the good work, girls!

Something new! Something different! **AN ALL GIRL DANCE BAND!** It was organized this semester under the direction of Mr. McIntire. It played at hour dances, Friday night dances, Hotel Olds, and many outside places too numerous to mention. It is doing fine now and getting better all the time—in fact—it is flying right into success. Some day it may take Ina Ray Hutton's place—we hope, we hope, we hope!

Row 1: Benedict, Marion, Mate, Slaughter; **Row 2:** Czecha, Kasner, Bliss, Hack, Byrnes; **Row 3:** Gross, Pruim, Bisel,

Popular? You bet! Promising? Very! Original? They couldn't be beat! **OUR BOYS' QUARTET,** composed entirely of sophomores! They sing both classical and popular numbers for assemblies. They croon at our floor shows and dances. They advertise Eastern's progressiveness and abilities throughout the city, and are filling the place of our famous Girls' Quartet which graduated last year. Best of luck, boys!

Would you take **GERMAN** if it were offered at Eastern? Many students desire to learn this language and consequently that is one of the chief objectives of the club. The fundamentals of the language as well as how to read and speak German are taught. The characteristics and habits of the people are also studied. Many meetings are devoted to singing German songs. "Awfwiedersehen" and "Liebewohl."

Bon Voyage! Au Revoir! Huzzah! **OUR FRENCH CLUB** is off to see the sights of Paris—the ambition of every member. Noted for its many unusual parties, the club holds dinner parties and dances of all kinds for various occasions. All the members yearn to visit the beautiful land of France. Speakers and games are enjoyed at the meetings. Mr. Sage is the advisor of this group. Vive la France!

A fiesta! That's what you see above! The **SPANISH CLUB (La Estudiantina)** observe Spanish holidays, such as January 6 for Christmas, have Spanish dinners, special reports, songs and games for their meetings. Some talks have been given by Miss Manning, Lillian Kasner on her Mexican trip and Dr. Swan. The club tries to further interest in Spain, Spanish people, and the Spanish language.

The Senate and the Roman People! That's the translation of **S.P.Q.R.** and the name of the **LATIN CLUB.** Semi-annual award of medals to honor Latin students upon graduation with magna cum laude rank for three and four years of Latin is undoubtedly the most outstanding service of the club. December 7 a Roman banquet was held. Two parties are given each year to honor students receiving A for a final mark in the previous semester.

Miller, Gilmore, Riley, Steinman, Alger, Miss Cline, Kasner, Isbell, Morrison, McMinn.

A new club in Eastern! **The BIBLE STUDY CLUB!** The studying of the Bible and listening to speakers made up the meetings. Mrs. Mixter, Mr. Clark and Miss Castle, a missionary who had just returned to the United States, were the speakers. A bohemian dinner to which the Bible Club of Central was invited was an important social event. Christmas and Thanksgiving parties were also given.

A perfect take off—the annual assembly was given by the **DRAMA CLUB** with a play entit'ed "Abraham Lincoln." Meeting weekly, it was entertained by members of the club as well as outsiders. It studied makeup, acting, and all phases of dramatics in general. Entering the city-wide one-act play contest it won first place. Miss Winters is the advisor of this group.

Up in the air—I'll say—These **TRAVEL CLUB** members were all year—about that trip to Washington. They sold pencils, old papers, conducted rummage sales, showed people through Estes-Leadley Funeral Home, in fact they did everything to raise money for this purpose. At their meetings they heard speakers, some of whom were Mr. Sage, Miss Ericson, and Dorothy Sober. A unique party consisting of bowling, a bohemian and skating was enjoyed.

Do you enjoy studying about customs, governments and social conditions of foreign countries. These are some of the projects of study of the **HISTORY CLUB** which offers an excellent source of recreation and education for those students interested in the people and places on other sides of the earth. This year they concentrated chiefly on South America. In cooperation with the Spanish Club a pageant was given in assembly. A most enjoyable party was held by the group.

C_{10} H_{22} O_{11}—H_2O. What are those things? Common sugar and water—a foreign language one studies when he takes chemistry. If he likes it, as many do, he may join the **CHEMISTRY CLUB** to learn more about this exceedingly interesting subject. Experiments not offered in the chemistry classes, field trips, reports, motion pictures are included in the programs of the weekly meetings. This year trips were taken to the Motor Wheel and State Biological Laboratories. The only requisite necessary for membership is a will to study and to cooperate in the work.

Eastern's **"HALL OF SCIENCE"!** That's the **SCIENCE CLUB,** whose purpose is to encourage general scientific knowledge and its application to practical problems. Trips of all kinds, far and near, have been taken. Some include, Museum of Science and Industry, Field Museum, Planetarium, Shedd Aquarium, all of Chicago and Greenfield Village. Two of the club's members have become members of Sigma Phi Sigma, an honorary Physics fraternity of Michigan State College. One of the most unique and unusual assemblies given was by this group of talented boys. Mr. Leach is the advisor.

Do you know the game laws? Many hunters do not and because of ignorance, disobey them. Consequently one of the chief objectives of the **SPORTSMAN CLUB** is to know and understand the game laws themselves and to acquaint others with them. Bird feeding stations are constructed in the winter by these animal loving youths. At each meeting the boys found all the data they could about various animals and reported their results. They also did fly tying and gun repairing. Steak roasts and bohemian dinners were the chief social activities.

FUR-FEATHER-FIN, yes, that's the name of a club and a very good name, too, because it fully explains the purpose and activities of its members who not only hunt, but also study the habits and ways of birds, fish and animals. It has constructed bird feeding stations and is building a log cabin. A trip to Camp Kiroliex proved most entertaining and educational. This group holds a first place financial rating because of its successful sale of pennants and candy. It was co-sponsor of the Fun Mixer.

Imagine! Taking six prizes in one contest! That's the **PAINT SPLASHERS.** Most of their time was spent in modeling clay and handicraft in general. They also made posters for the school's outside activities. Those who wish to go away to study art are in one group which sponsored candy sales, rummage sales and collected old papers to raise money. Three of the club members were on the Lantern staff.

Soper, Robinson, Beachler, Wilson, Mr. Courtney, Ginter.

One's hobby combined with his work, that's the **GRAPHIC ARTS CLUB.** During the fall months these boys render a service of which many are not even aware, the editing and publishing of football programs for all home games. They also publish the programs of all school events, such as Senior B and faculty plays, operas, and Senior Day. These boys also deserve the credit for the efficient manner in which the Easterner is published every two weeks. They made visits to local printing companies including the Hallenbeck Printing Company, Franklin De Kleine, the State Journal, and to several engraving companies and other places of interest to those in the publishing business.

Hear ye! Hear ye! The Angels of Mercy at Eastern, **THE GIRL RESERVES,** who fill Christmas and Thanksgiving baskets, send gifts to poor Indian children, hold many fascinating and unusual parties, and always have marvelous times by helping others as well as themselves. They try to discover new interests and talents that they were not aware they possessed, and to develop their personalities through play, work, comradeship and worship.

Every girl in Eastern belongs to this organization, the **GIRLS' LEAGUE.** The League is divided into units. The Senior A unit discussed the problems of the girl graduate; the Senior B's stressed the qualities of an ideal girl; the Junior A girls had as its subject "Service"; the Junior B unit studied social etiquette; the Sophomore A's attempted to develop their hobbies; the Sophomore B girls accustomed themselves to the ways of Eastern. Miss Baumgardner, Miss Toogood, Miss Pollitt, Miss Manning, and Miss Patnales are the faculty advisors of these groups. The girls of Eastern had the pleasure of seeing and hearing Amelia Earhart this year.

How to become an efficient office worker is the chief objective of the members of the **QUAKER BUSINESS CLUB.** Interesting? You bet! Because who wouldn't want to be a perfect office worker? Industrious and ambitious commercial students join this club and are given an opportunity to gain further knowledge concerning the world of business. Speeches given by someone of the business world, visits to modern offices, in fact, everything that might further educate commercial students in their work, constitute the meetings.

Knit 2, Purl 2—That is almost the by-word of the Eastern **KNIT-WITS.** It is a wonderful and worthwhile hobby, however. Just see what they have when they finish, a lovely sweater, dress or suit. Because it is one of Eastern's largest clubs it is divided into two groups, the beginners, who are taught the fundamentals of kitting, the simpler stitches and the making of a few simple garments, and the advanced Knit-Wits who learn more complicated and fancy stitches and who make more difficult articles.

Curtain! Curtain! Last curtain! Girls in sparkling white blouses and black skirts hurrying early arrivals or late comers down the aisles to their seats, that's the **AUDITORIUM CLUB.** Because of their efficiency in ushering at all Eastern's programs, they have been invited to usher at Prudden Auditorium as a new project this year. A few boys are also in the club. It is their duty to act the part of doormen and take the tickets. Many social events are also held by these snappy people.

Look out!—**The MIX MASTERS,** a new, up and coming club is about! Remember all those thrilling weiner roasts, dances and parties everyone heard so much about? They were all sponsored by this group. As co-sponsor of the Fun Mixer they showed their originality and dependability. Serving at banquets was another of their many activities. Miss Patnales, a new member of the faculty, is the advisor of this club which now contains over a hundred members. It is very new but extremely promising and busy!

What is the proper dress to wear? How shall I entertain my boy friend? How can I plan a successful party? These are only a few of the questions discussed and answered by the **GIRLS' DISCUSSION CLUB.** Interesting? Most certainly! Entertaining? Well, yes! Educational? What could be more so?

One of the most active of the boys' organizations is the **BOYS' DISCUSSION CLUB.** The meetings are conducted in rather a formal manner according to parliamentary procedure. A contest was conducted by this group in which the members were divided into two groups and each tried to present the best program. Current topics of the day were discussed and often speakers were obtained for the meetings.

Do you have a letter award in any sport? If so, you may join the **VARSITY CLUB.** The purpose of this organization is to encourage all forms of athletics in Eastern, and to promote good sportsmanship. The Varsity Drag was the outstanding social event of the club. Athletic coaches of Michigan State College gave several interesting talks.

Clean living, clean speech, clean scholarship and clean athletics are the initial aims of the **HI-Y CLUB.** Problems of youth and the advancement of young people are some of their topics. The Hi-Y, affiliated with the Y.M.C.A., often had outside speakers for its meetings. A dance, sponsored jointly with the Girl Reserves, was the main social event. Mr. Anderson is the sponsor.

Backflips! Handsprings! Tricks on the parallel bars! All sorts of stunts similar to these are displayed by members of the **TUMBLING CLUB.** The annual circus with its many humorous as well as difficult acts, is the main event produced by this group in cooperation with the Girls' Dancing Club. The members, directed by Mr. Winston, often display their talents in assembly and community programs.

Tap, Tap, Slide, Tap! Such sounds come from the gym when the **GIRLS' DANCING CLUB** is around. Many parties are given by these happy girls and often the Tumbling Club members are invited. All the beautiful and original dances with their colorful and effective costuming at the circus and musical revue were the results of their nimble feet in action.

When the "Call of the Wild" was issued this year seventy-five candidates turned out to give Coaches Graff, Burnham, and Bovard the easy task of picking the cream of the crop in **FOOTBALL.**

After stiff training and rough scrimmages, our fighting eleven were ready for the opening game against Rochester. The first touchdown was made by a pass from Osborn, who was co-piloting for Bob Sherman, to Bob Saunders who received it on the goal line. Miller, a soph, put the ball between the uprights for the extra point. Early in the fourth quarter, Osborn again threw a pass which glided into the waiting arms of Don Ball a few yards from the goal line. Osborn then plunged the ball over for a second touchdown. Miller's kick went wide and the game ended with a winning score of 13-0.

The next Friday, we lost a tough game to River Rouge by a score of 7-6. The invading team attempted three passes in the first half, one of which enabled us to get our only touchdown. The ball was intended for Buckholz, Rouge's speedy half, but was intercepted by Dick Ruckle who raced thirty-five yards for a touchdown. Sherman attempted a kick for the extra point, but it was blocked. Early in the fourth quarter the Rouge team backed a charge which gave them their victory. Buckholz heaved a long pass to Wellner, who trotted over the goal line for their touchdown. Buckholz running from scrimmage scored the extra point.

Going over to Jackson the next week for what we thought would be an easy victory, we met with a very unpleasant surprise. Although the Quakers outpointed the Vikings, we lost the game by a small margin. With a weather report of fog and rain, the game commenced on a muddy field. Out-playing the Vikings from the start we got the ball within one foot of the goal, but played hard luck and fumbled, Jackson recovering. In the second quarter Coscieuski picked up a fumble on the forty yard line, and ran the distance for a touchdown for Jackson. Moelaart place-kicked for the extra point. Again Eastern got the ball within a yard of the goal but was unable to score. The game ended Jackson 7, Eastern 0.

In the second 5-A game of the season against Battle Creek, Eastern emerged victorious with a 26-7 score. In spite of the Bearcats' passing attack they were unable to stop the Quakers' victory march. The Bearcats got their lone touchdown on a sensational run by Roche, the quarterback, who picked up Miller's kick and raced seventy-nine yards for a touchdown. The extra point was made, giving the Bearcats their total for the evening.

Continuing their winning streak, the Quakers went on to Ann Arbor to give the scrappy eleven a trimming to the tune of 26-0. Eighteen of the twenty-six points were made by Brower, who carried the ball twenty yards for the first touchdown. Sherman was also outstanding. Not being satisfied with two in a row we traveled to Muskegon Heights to end their winning streak. This victory meant much to the morale of Eastern because Muskegon Heights had not lost a game in the past three years. In spite of the Tigers' several attempts at passing and running, Eastern's determined defense stopped them, and we came home on the wings of a 10-0 victory.

Our hopes were of the best, because of our recent victories when we went into the most fought for game of the year, our opponents being none other than those boys from the west side of town. Central shoved us a 7-0 defeat which made them the city champs, and gave them undisputed possession of first place in the 5-A league.

The Eastern reserves also had a good year, losing only one game to Ovid during the entire season.

1937 Eastern-Central Contest

Starting the season with its annual **BASKETBALL** game against the Alumni, Eastern's Cagers came out on the short end of a 21-19 score.

In our next game with Kalamazoo, we revenged our defeat with a score of 16-13, and went home for a rest during Christmas vacation.

After hibernating for two weeks, our boys shaved up and gave the next game to Ann Arbor by a 24-27 score. Up to the fourth game there had not been more than a difference of three points in any of the scores. Knowing that this could not continue we took our next game from Jackson by nine points, 26-17.

In our first game with Central's five we lost again by three points, the final score being 14-17. Two days later we defeated Port Huron 23-14.

The next week-end we had two good games with Battle Creek and Bay City, winning the first 27-20 and dropping the second by a measly free throw for Bay City, the score being 22-23.

In our second game with Ann Arbor we were again unable to take them, and the boys marched off the floor leaving a 16-21 score. One defeat a week can't stop the Quakers; no, sir, they gave Grosse Point a plenty tough struggle but again needed that one foul shot, losing another game by one point. The score stood 14-15.

Most teams would begin to get discouraged at this point but not those Quakers. They went right on to defeat Jackson and Central in their next two games, making a 100% average in our two games with Jackson and revenging our defeat by Central in the early part of the season. This made the standing in games: Central 1, Eastern 1; therefore in the Regionals we removed all doubt by defeating them again, this time by a score of 19-8. Continuing in the regionals we were defeated by Flint Northern 15-25.

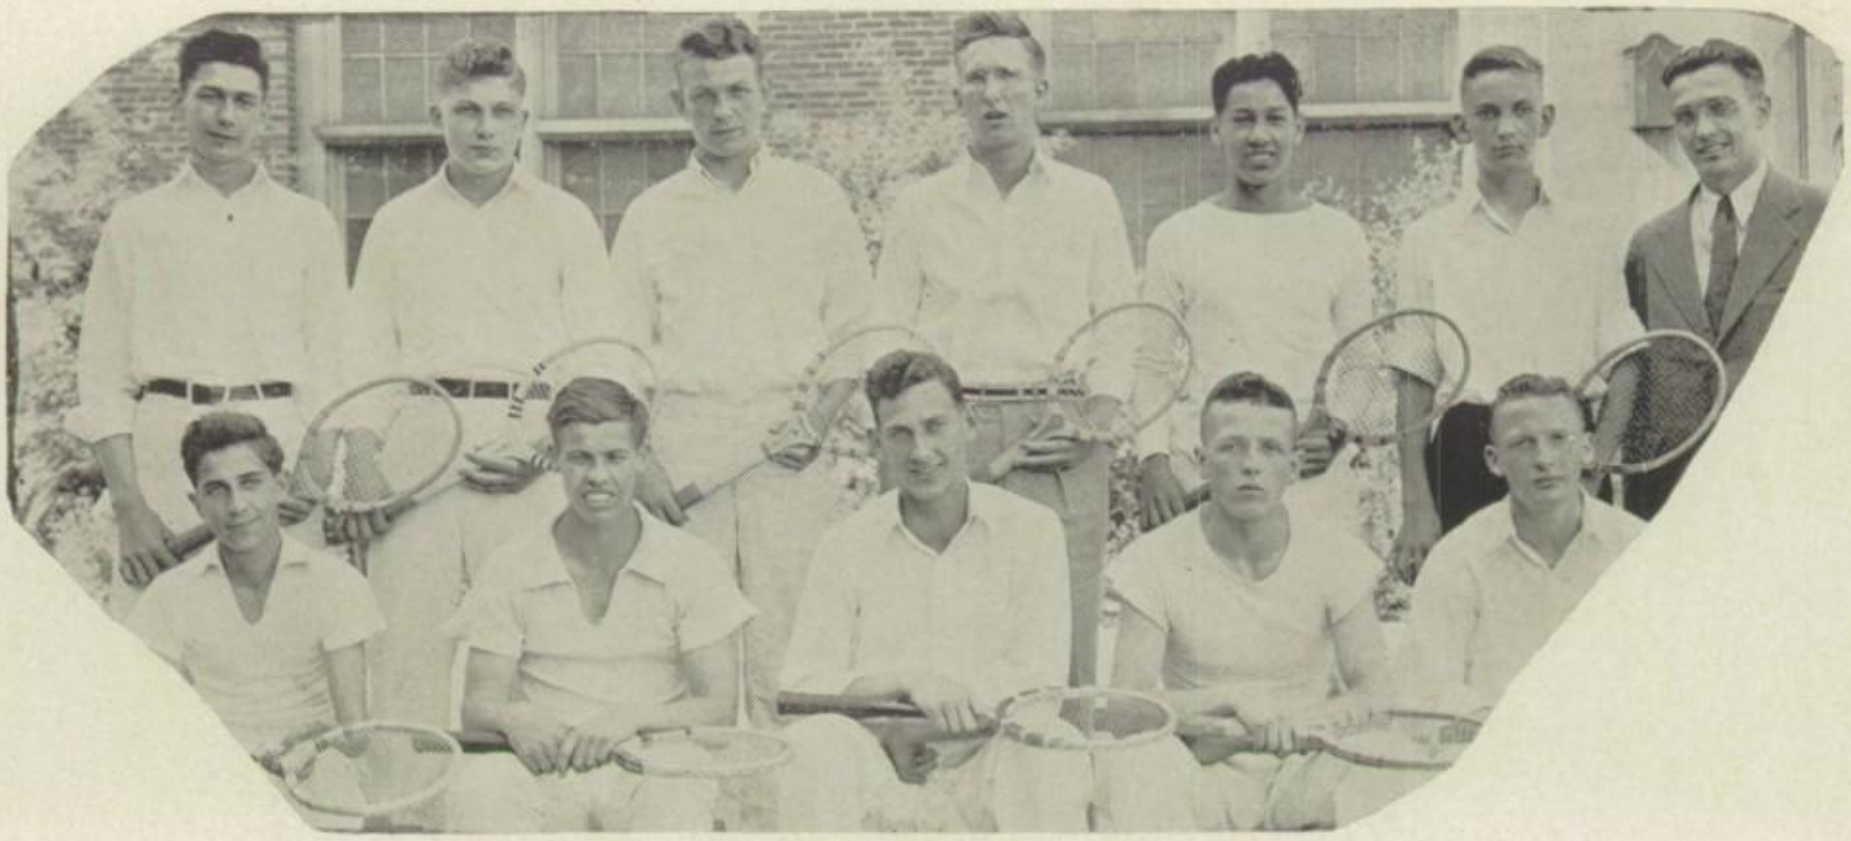
Starting the season against the veteran East Lansing team our **GOLF** team lost the first meet by the small margin of ten points. Not being discouraged, however, they came back to win their second meet from Howell. Taking another crack at East Lansing we lowered their margin to two points. On a fourteen hole course in Battle Creek the Quaker divot diggers beat the Bearcats in their own home town. Losing to Ann Arbor we went on to defeat our closest rival, Lansing Central. A fair season was brought to a close by taking third in the Regionals and eighth in the State.

Swing high! Swing low!



Row 1: Purdy, Knapp, Kirchen, Clapham, Dixon; **Row 2:** Hollenbeck, Folks, Kludt, Schraft, MacInnes, Cessna, Coach Fox.

With several letter winners back from the 1935 **TENNIS** team, Eastern started its 1936 season against the veteran regional champions of Grand Rapids, Ottawa Hills, on April 25. In the closest and hardest fought meet of the year, Eastern emerged with a 5 to 2 win. Kludt, a senior, Cessna and Folks, sophomores, turned in creditable victories to start their first year as regulars. Bill Knapp lost a long three-set match to Culver for his only singles loss in his three years at Eastern, and Kirchen met his only dual defeat of the year from Drilling. April 30th, Eastern defeated East Lansing—1936 State Class B Champions—6-1. Kirchen obtained revenge for a sophomore year defeat by trimming Gray 7-5, 6-1, after a slow start. Rained out of a match with Hastings, Eastern then opened its 5A league campaign with a 5-2 win at Battle Creek. In the annual clash with Central for the city championship, Eastern took a surprisingly easy, 6-1 victory over a Central team which was good enough later to take a Regional team championship at Jackson. Kirchen's long first set against Graham, Central's ace, set the marathon record for the year—Kirchen winning 13-11, 6-1. The following week Eastern went to Owosso, and returned with a 7-2 victory over the team leading the Saginaw Valley League. On successive Saturdays, Eastern won from Ann Arbor 7-0 and Jackson 7-0, thus winning its fifth 5A League championship in six years. In these two meets, Kirchen reached the peak of his three years of competition in defeating two of the best players in the State, Frisinger of Ann Arbor, and Epperson of Jackson. Coach Fox was quoted as saying the Kirchen-Frisinger match to be the best High School match he had seen in fifteen years of coaching. On May 23 Eastern competed in the Regional Tournament at Michigan State Normal College of Ypsilanti, winning its eighth consecutive team championship. In winning the singles Art Kirchen defeated Wislonski of Pontiac, Kelso of Fordson, McPaullin of Pontiac, and in the finals, teammate Bill Knapp. The doubles championship went to Eastern for the eighth successive time when Les Kludt and Jack MacInness defeated another Eastern team, Schraft and Clapham in the finals. Eastern came through the state finals with the team championship for its second State title in three years and added to its record of being in the top three teams of the state during six of its eight years of history. In singles Kirchen advanced to the Semi-finals where he lost a tough match to Blankertz of Monroe. The doubles team, Les Kludt and Jack MacInness became State Champions by defeating Kalamazoo's Regional Champions in an easy match, 6-1, 6-4. The feature match of the doubles was Eastern's semi-finals win over a strong Grosse Pointe team 11-9, 5-7, 8-6, in which each team had chances to win, and it required 8 match points before Eastern could come through with the final winning point. MacInness' steadiness and Kludt's smashes featured this match.

Eastern closed its eighth consecutive winning season by awarding gold "L's." emblematic of State Championship teams, to Co-Captains Bill Knapp, and Art Kirchen, Jack McInness, Leslie Kludt, Bob Dixon, Bob Purdy, Bob Clapham, Marvin Schraft, Bob Cessna, Harold Folks, and Junior Hollenback.

Row 1: Marshall, Farrand, Bigg, McLeod, Deason, Wheeler, Slee, Carter, Brown, Perkins, Bissel, Santo, Gibbs;
Row 2: Keck, Smith, H. Helman, Ernsberger, Sikes, Moore, Gray, Vostagones, Miles, Estok, A. Helman.

Eastern's **SWIMMING TEAM** opened the season this year with a defeat at the hands of Battle Creek in their own pool. In the next meet at Central our Quaker Neptunes were again defeated by 8 points, 38-46. Dropping the next three meets to Ann Arbor, Kazoo, and Jackson we came back to take another crack at Central, this time in our own pool but our swimmers were unable to do more than tie, 42-42. After a good meet with M.S.C. Frosh we ended the season by placing 5 in the 5A at Battle Creek.

Smack! Crash! Bang! Those are the sounds you heard if you went to any of Eastern's **BASEBALL** games last season. Starting the season against Ionia we played good ball and defeated our first three opponents. Then just when it looked like a perfect season those boys from Battle Creek had to nose us out by a 6-5 score. But you can't discourage those Quakers! We went right on and took our next three games and were all ready to defeat Howell in our last game, but were prevented by rain which left our standing—Won 6, Lost 1—not a bad average for any team.

Row 1: Robart, Battley, Harris, Dibble, Reutter, Schwartzman, Hoisington; **Row 2:** Charland, Green, Richards, L. Boomershine, Kellogg, Campion, Dean, Stange, Denby; **Row 3:** Coach Graff, Miller, Starbuck, Draher, Beauchamp, Shelberg, Knight, Kaulitz, D. Boomershine, Towsley, Young.

Row 1: Sikes, D. Apple, Jacobs, Starbuck, Valleau, B. Apple, Ruckle; **Row 2:** Saunders, Swift, Wonch, Larkins, Delp, Horn, Sturk, Beekman; **Row 3:** Coach Winston, Simpson, Kaiser, Robinson, Coach Edgerton, Holstein, Rathburn, Fields, Coach Burnham.

Eastern's **TRACK TEAM** seemed to be following the weather-man last year. In three of its seven meets the track was not in condition either because of rain or repairs. However, the boys made a good showing in the meets which they did run. In the 5A at Ann Arbor our tape-busters came in second and went on to make a good showing in the state meet at Grand Rapids. Our track coaches are: Mr. Winston, Mr. Burnham, and Mr. Edgerton. Eleven boys received enough points last year to win a large "L." The lucky stars were: Bill Sikes, who won a gold letter for his fine running in the State meet; Barclay Larkins, George Delp, Herman Holstein, Bill Horn, Archie Robinson, Dick Kaiser, Ferry Rathburn, Bob Saunders, Bob Jacobs, and Ted Wonch.

Tough and hardened by weeks of training in the warm autumn of 1936, our **CROSS COUNTRY** team hopped over to Ann Arbor and made a good showing against A. A. and Flint Northern with the points totaling 37, 38 and 45, respectively. Dropping the next two meets to Kalamazoo and Central we again came back to take third place in the 5A, first and second being taken by Central and Jackson. Louis Gray, our demon of the track, placed eighteenth in the state meet. The season was ushered out with a defeat at the hands of the M. S. C. Frosh 39-16.

Every semester Eastern holds regular **INTER-CLASS** games between the classes to determine which has the best team in the predominating sport of that season. In the spring the interclass sports are track and indoor, and in the fall, basketball and volleyball. Last year the Intramural sports were won by the 11-A boys and 11-A girls. Orion Brower was the Boys' Athletic Director and Mary Ellen McKeon, the Girls' Athletic Director.

The **GIRLS' SQUAD LEADERS** of Eastern are a big help to Miss Kay. They take the role, check their squads' clothes and give demerits. At the end of each semester the squad leader who is judged best for that semester is presented with a cup.. Last semester the cup was won by Ethna Geovanas, who has had six semesters of gymnasium work in Eastern.

Every girl who takes gym at Eastern is a member of the **G. A. A.** The **GIRLS' ATHLETIC ASSOCIATION** gives parties and entertainments for the gym classes and also awards G. A. A. Emblems to the best girl gym squad of every semester. The best squad is determined by the fewest number of demerits. Demerits are given for such things as not having complete gym togs or not taking showers after coming from the gym floor.

The **GIRLS' LIFE SAVING CLUB** of Eastern is probably one of the best girls' clubs in the school. It is sponsored by Miss Kay and under her supervision the girls are taught to break holds in the water, carry the victim, and other work along the line of life saving. Here we see Peg Mackey administering artificial respiration to Norma Barr.

Qu-Qu-Quak-ke-ke-kers! Q-u-a-k-e-r-s! Quakers! The **CHEER LEADERS** got a new deal this year under the supervision of Mr. Leyrer who spent much of his spare time drilling the boys and having them practice new yells. He brought yell leaders from neighboring schools, and put the pep into the pep of Eastern.

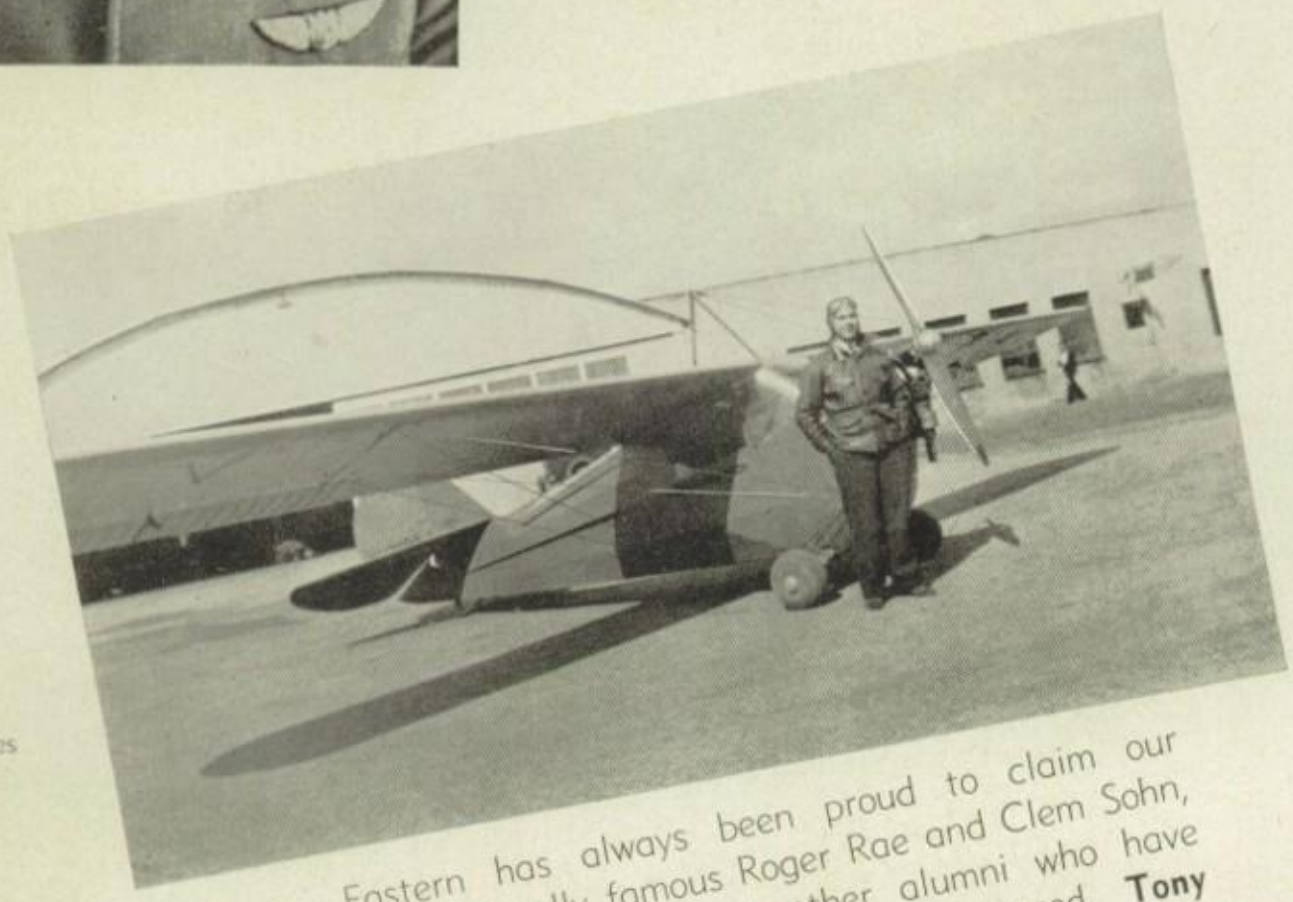
Engraving ..... Lansing Color Plate Co.

Printing ..... Stone Printing Co.

Binding ..... Wagenvoord & Co.

Do you recognize him? Of course, it is none other than **Mr. Dwight Rich,** our noted principal. At the time this photograph was taken, Mr. Rich was in the service of the United States Army Air Corps, as a second lieutenant. Having had previous training in ground work at the University of Illinois, he enlisted in February, 1918, at Kelly Field in Texas, for the duration of the war. After peace was declared the following November and his release from army duty was granted, he was offered a very good position as stunt instructor which he declined because of other ambitions. Mr. Rich has continued to be an air enthusiast and now frequently visits the airport to take up his favorite ship.



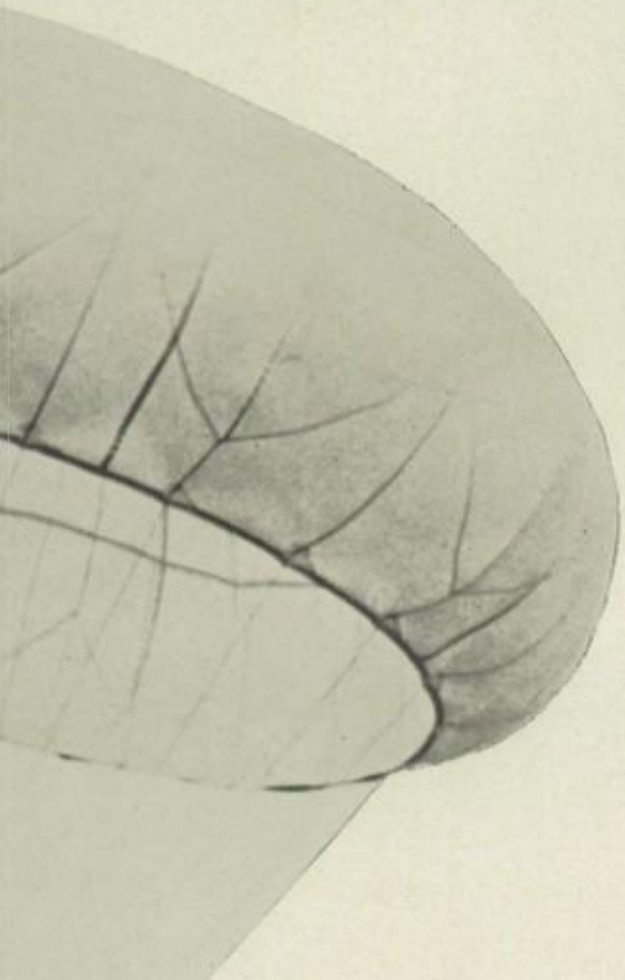
Charles Hanes

Eastern has always been proud to claim our internationally famous Roger Rae and Clem Sohn, but we have numerous other alumni who have entered the aviation field and progressed. **Tony Winters** is the radio operator and a mechanic at the Capital City Airport. **Miss Weyant** is hailed as Lansing's No. 1 aviatrix.

Marian J. Weyant

Tony Winters

George Shores



Tom Carleton

Conrad frequently pilots the huge Ford tri-motor passenger plane and gives instruction. **Hanes, Carleton,** and **Shores** are advanced student flyers. All, except Shores who is a graduate with this June's class, are former Easternites. Here's wishing them luck and a great future.

Ernest Conrad

MR. HARRY WILSON, a teacher in the Industrial Department of Eastern, was with the Royal Air Force of Great Britain during the World War. He was transferred from the Royal Medical Corps, with which he had served fourteen months, to the 35th Squadron, Royal Flying Corps, in June, 1916. After a short training period he was assigned to active service in France with the rank of sergeant-mechanic. The squadron was demobilized in January, 1919. Using Armstrong-Whitworth two-seater biplanes the 35th carried on reconnaissance work for the cavalry divisions. Other assignments included the photographing of enemy positions, the directing of artillery fire, guarding kite balloons, machine gunning enemy trenches, bombing night and day, and dropping ammunition and food by parachute. Mr. Wilson can relate many thrilling experiences, and was with the ill-fated British Fifth Army near St. Quentin during the great German attack of March 21st, 1918. This squadron played a part in every major offensive of the British from the Battle of Amiens, March, 1917, until the war ended November 11, 1918.

FOR NINE YEARS

the students of Eastern High School have made this store their meeting place. It is no longer a Habit -- it is a Custom to say: "I'll meet you at Phillip's."

We extend our hearty congratulations to the Seniors. Continue to make our store a place to meet your class-mates and friends. You will be welcome at all times.

Sand -- or ROCK?

"You'll go farther if you don't try to go so fast." Or words to that effect. Anyway—there's plenty of good common sense in the idea.

You folks who graduate this year have a lot of years ahead of you. Make them as productive as you can—that will be fine. But remember—you'll go farther and higher if you will build soundly as you go. Build the house of your career on rock—houses built on sand don't last very long.

SCHRAFFT'S

The Nation's Leading Candies

Remember? . . . .

When mother measured out sweet butter and rich, heavy cream, fresh eggs and white sugar — and a whiff of melting chocolate drifted all through the house — remember how you could hardly wait for her to finish?

Schrafft's candies are made in the same careful way, from the same choice ingredients, brought from the garden spots of the world — cocoa beans from the Tropics . . . . sugar from Cuba . . . . cinnamon from Ceylon . . . . cashew nuts from India . . . . filberts from Levant . . . . vanilla beans from Madagascar and Mexico . . . . peanuts and pecans from our own southland . . . . peppermint oil from Michigan . . . . honey from California — if you could visit the Schrafft factory in Boston, commercial geography would become a very real thing to you, instead of a dry-as-dust subject.

So, the next time you buy candy, buy Schrafft's — the finest that can be made, whether a 5c Bar or a beautiful package at $2.00 a pound. Since 1861 Schrafft's have led the candy parade. Schrafft's candies taste good because they **are** good. Buy Schrafft's always. At good stores in your own neighborhood.
